

Create a workflow which will output the following details:

1. Do all files have entities? (true/false)
2. What is the total count for all entities?
3. What is the count for each type of Entity?
4. Provide a breakdown of entities which have associations in the following manor:
 - a. Per Entity count
 - b. Total count
5. Provide the vehicle detail that is associated to the address "4976 Penelope Via South Franztown, NH 71024"?
6. What person(s) are associated to the organization "Thiel and Sons"?
7. How many people have the same first and middle name?
8. Provide a breakdown of entities where the id contains "B3" in the following manor:
 - a. Total count by type of Entity
 - b. Total count of all entities
